PRO SERIES

Overview

The VC847PF is a PoE dome camera with a motorized varifocal lens, offering greater installation flexibility in indoor and outdoor environments and allowing user to remotely adjust how wide or narrow they want the camera's field of view without any loss of quality. The camera comes with a dark gray cover that can be optionally attached to change the appearance of the camera for aesthetic purposes. As part of the commercial Pro Series line, the camera enables intelligent analytics for object detection and business activity tracking. In addition to cloud clip storage, the VC847PF supports 24/7 recording to an optional onboard microSD card and/or the Commercial-Grade Stream Video Recorder.

Business Activity Analytics

Occupancy + People Counting - Measure occupancy and foot traffic. Receive a notification when real-time occupancy reaches a specified threshold.

People Counting - Measure foot traffic through a certain area. Count how many people cross a virtual line in one direction.

Queue Monitoring - Monitor people waiting in line. Receive a notification when the number of people in line or average wait time reaches a specified threshold.

Crowd Gathering - Monitor large groups. Receive a notification when the crowd size reaches a specified threshold.

Heat Mapping - Visualize where people spend the most time within an area during a specified date and time range using a heat map.

Onboard Recording with Smart View

Record encrypted, 24/7 HD footage locally on the camera with a microSD card. View live and recorded video on the Alarm.com website and mobile app from anywhere, using the SmartView video timeline to search for important events such as person detected or door accessed, and jump straight to the corresponding footage.
